

Demo Walkthrough Guide: Document Anomaly Journey

This guide traces the lifecycle of compliance anomalies from detection through a auditor review and client transfer, comparing the **Recruiter** experience, **Auditor** experience, and **Candidate** security isolation.

```
```mermaid
graph TD
 A[Candidate Uploads Document] --> B{OCR Validation Engine}
 B -- Mismatch / Altered --> C[Flag Anomaly: Hard-Block / Soft-Flag]
 C --> D[Candidate List: ⚠️ 1 Blocked tag appears]
 C --> E[CDK Global Client Transfer Gate: Locked]

 D --> F[Recruiter Page: OCR Mismatch table populated]
 F --> G[All Documents Tab: Lock badge original-tamper-protected]

 G --> H{Role: Recruiter vs Audit?}
 H -- Recruiter --> I[Download Hidden - Forward System-to-System Only]
 H -- Audit Role --> J[Download Unlocked - Action logged to ledger]

 C --> K[Auditor opens Anomaly Review Queue]
 K --> L[Clicks Waive/Resolve with justification text]
 L --> M[Anomaly cleared & logged to Compliance Audit tab]
 M --> N[Transfer Gate: Unlocked Green]
 N --> O[Recruiter exports placement secure system-to-system]
```
